Air Quality Program

Asbestos NESHAP Filing Requirements Flowchart *

*** ONLY APPLIES TO:**

- ALL Commercial Buildings
- Residential Buildings containing 5 or more dwellings
- Residential Buildings being demolished for non-residential facility
- Any of the above WITHIN BERNALILLO COUNTY

DEFINITIONS:

- **Demolition:** removal of any load-supporting structural member, or intentional burning of, any facility
- **Renovation:** altering a facility in any way, including stripping or removal of RACM
- **RACM (Regulated asbestos-containing material):** ALL friable asbestos material, Category I nonfriable ACM that is now friable, Category I nonfriable ACM that will be or was subjected to sanding, grinding, cutting, or abrading, or Category II nonfriable ACM that has a high probability of becoming or has become crumbled, pulverized, or reduced to powder by forces expected to act on material in course of demolition or renovation operations
- **Category I nonfriable ACM:** asbestos-containing packings, gaskets, resilient floor covering, & asphalt roofing products containing more than 1% asbestos
- **Category II nonfriable ACM:** material, excluding Category I nonfriable ACM, containing more than 1% asbestos that, when dry, cannot be crumbled, pulverized, or reduced to powder by hand pressure

NOTES:

- Prior to demolition or renovation, a **thorough inspection**, to include lab work (as applicable), must be conducted at facility by a **LICENSED ASBESTOS INSPECTOR** & notification must be submitted certifying to presence or absence of ACM, even if RACM is not or may not be present in facility
- Owner/operator is responsible for ensuring ACM does not become RACM, unless it is accounted for in NESHAP & fees are paid (if applicable)
- These rules are not all inclusive – refer to 40 CFR Part 61.145, or the City’s website, <http://www.cabq.gov/airquality/air-quality-permits/asbestos-program>, for additional information
