

## CALL TO ARTISTS

The City of Albuquerque's South Broadway Cultural Center Gallery is curating an exhibition about Space and how it inhabits our imagination as it relates to our future. The exhibit is co-curated by the celebrated New Mexican artist and designer, Virgil Ortiz and Augustine Romero, Gallery Curator, City of Albuquerque with curatorial assistance by Anhua Katniss Xu Garcia, UNM CFA Arts Management Leadership Intern.

About Our Existential Space: Contemplating our own presence and existence in the land of enchantment is a magical reflection of ourselves in a larger universe. We all have our own origin stories and on how we arrived to New Mexico. Space travel can be part of our next journey. A curated exhibit at the South Broadway Cultural Center will explore our next journey into space.
