

APD update 17-03

January 27, 2023

Upon taking command of the Real Time Crime Center in April 2022, I was unfamiliar with this recommendation and have since asked and received an update for each area command. Pit of the 6 Area Commands all but the South East has followed and implemented the recommendations. The South East area command had and will continue to follow the recommendation once the remodel/rebuild has been completed which is scheduled for later this summer.
