

APD update 21-18

January 27, 2023

FH PRT went to this business in 2021 to speak with them about individual's possibly purchasing alcohol for others. Employees were told to be on the lookout for this type of activity and call officers if they see it so enforcement actions can be taken. Since I have been the commander of the Foothills Area Command, I have not heard of this concern returning. I have also been told that this business is in the process of being sold. This area is one of FH PRT normal patrol locations.
