

# APD update 19-10

January 27, 2023

The “ABQ Police Mobile” app was established approximately five years ago from developer: MobilePD. The latest version (v1.4) is now three years old and has since been discontinued by the develop.

APD is moving to the developer’s new offering: “Atlas Pone” which will provide different set of tools with increased capabilities and functionality – along with nation -wide coverage from participating departments utilizing the app’s geo-fencing function.

This product is already live on the iOS and Google stores and available for download. The completion of this rollout should be within the next 30 days.

## DENIED

The City of Albuquerque/ Albuquerque Police Department is not the developer of this app – no changes can or will be made to this application.
