*Please provide response to highlighted portions.

APD UPDATE:

Crime statistics provided to each area command were initially the same format for each CPC. Some CPC's requested different information be added and/or removed resulting in different products for each. APD concurs that the standardization of crime statistics is beneficial. Going forward the crime statistics will be presented in the same manner as it is to the public on its website <https://www.cabq.gov/police/crime-statistics>. These datasets are broken down to the area command level and are consistent with the FBI NIBRS reporting methodology.
