Introduction to MHRAC

The Mental Health Response Advisory Committee (MHRAC) was created by the Court Approved Settlement Agreement (CASA). We've been around since day one and have a focus on three areas, resources, and resources being available to access different things within the city that APD and first responders can use as it impacts homelessness and mental health issues. We are also involved in training and policy; training is one of those things we made a tremendous impact on. As far as the training that is offered. Policies are one of those things where the MHRAC is involved with assisting in writing approving, and recommending policy as it relates again to the narrow focus; we think narrow, but sometimes it gets pretty wide-focused on how law enforcement interacts with those experiencing homelessness and those experiencing a mental health crisis.

MHRAC “Draft” Ordinance, Rachel Biggs & David Ley

- The idea for an ordinance is that MHRAC would become codified into a City Charter as a commission at the City Of Albuquerque.
- Rachel Biggs explained how the process works and then motioned to move forward with the “draft” ordinance language. Dr. David Ley seconded the motion. The remainder of the board members were in agreement to go forth with no concerns.
- David Ley mentioned why this came about and said that many lessons were learned through MHRAC and that helped put together the ordinance request.

Albuquerque Community Safety (ACS) Update, Walter Adams

Gateway Center and Health, Housing, & Homelessness Update, Ellen Braden

- In their winter shelter they had an 893 bed night that they were able to provide. They will open again if the Gateway West and First Responder are full and there is a highly dangerous cold situation.
- A huge RFP is closing at the end of this week for six of their services (family, men/women, med-sobering, young adult, and first responder drop-off.)
- Data was given from June of 2022 to June of 2024. They had over 5000 people stay at the Gateway West shelter. There were 11,000 unique stays over that period and the average stay was five days. More than sixty percent of those stays did not return for a second stay.
