

LEARN TO EXPLORE LANDSCAPES

23
SEPT.

9 AM - 11 AM

Elena Gallegos Open Space
Pino Trailhead

FREE registration required at
play.cabq.gov

Join Les McFadden, retired UNM Earth and Planetary Sciences professor, on a moderate 1-mile hike while learning to explore landscapes. Have you ever wondered how the Sandia mountains were formed? Or the foothills below? This hike will explore and explain the formation of different geologic features, some unique to the Sandia Mountains and many that apply to locations you may travel to next!
