Trending Tuesday: The APD Crime Analysis Unit reports that for the December 3-9 period APD officers took 133 auto burglary reports. The highs ranged from 35 (North East Area Command) to a low of 12 (South West Area Command). *The Foothills logged 19 auto burglary reports for that week, placing 4th out of the 6 APD Area Commands for reports of auto burglaries. Month to date, the Foothills has logged 30 auto burglaries – high for only 10 calendar days* indicating easy targets and people continuing to leave valuables or visible items inside vehicles, parking and walking away.

Hot Wheels Report: The Crime Analysis Unit reports that for the same week of December 3-9, APD took 43 stolen vehicle reports. We are really *on a steady decline with this type of crime*, but if you are a victim of auto theft, it's 1 too many. The week of November 26-December 2 APD logged 81 stolen vehicles – *what an amazing drop in numbers in just a week from 81 to 43.*

The highs ranged from 10 (South East and North East Area Commands) to a low of 4 (South West Area Command). *The Foothills Area Command took 5 stolen vehicle reports that week, placing us 5th among the 6 APD Area Commands – very low* and at the bottom of the list, which is good. Let's hope our numbers get even lower and that the Foothills residents put crime prevention strategies to work.

The most popular auto theft spots city-wide reported by APD Crime Analysis were: single-family residences (17 cases), apartments (16), retail (3) – probably because the holiday Tactical Plans at the malls are paying off and with 1 case per location other spots to steal vehicles last week were recreation, financial institutions, bars, roadside, and overnight lodging.

Most popular vehicles to steal the week of December 3-9 were: Chevrolets (5/2 were Silverados), Fords (5/3 were pick ups), Kias (5/2 were Optimas), Toyotas (5) and APD Crime Analysis Unit reports there were 7 'warm up' auto thefts for that week – 1 per day average.
