**Trending Tuesday:** Our APD Crime Analysis Unit tells us that city-wide APD took 130 auto burglary reports for the 5 days from October 22-26. The numbers ranged from a low of 14 to a high of 32 among the six APD Area Commands. ***The Foothills Area Command had the second lowest number of auto burglary reports for those 5 days; 18.*** I still ask that you clear the vehicle of any valuables and lock up – I know we can get this number down with the community's awareness and help by practicing crime prevention principles.

**Hot Wheels Report:** The APD Crime Analysis Unit reports that for the prior 7 days APD took 66 auto theft reports city-wide (October 22-28). The numbers ranged from a low of 6 and 8 in 3 of 6 APD Area Commands to a high of 25 stolen vehicles. ***The Foothills Area Command was the Area Command with the lowest number of stolen vehicles (6) for the past week*** – a really great piece of data/news from Crime Analysis!

Where were vehicles being stolen across the city for that past 7 days? Apartments and single-family residential neighborhoods each tied with 19 cases each, then retail and hotels with 4 cases each, 3 at car dealerships/mechanics and businesses, 2 at malls, and 1 each at a strip mall, a restaurant and a recreation spot.

What types of vehicles were reported stolen last week? Fords (9 stolen/3 were pick-ups and 3 were Explorers), Hondas (8/4 were CRVs from the 2000s), and Chevrolets (7/2 were pickups).

If you follow my daily posts, you can see that we had a drop-off in stolen Hyundais and Kias.
