Mr. Miller stated that he has not heard back from the Mayor’s office concerning the invitation to have the Mayor attend the TAB meeting

**Public Comment**

None

**Chairperson’s report**

Mr. Miller commented on the press conference from Tuesday given by the Mayor, that it was very disappointing news and he also expressed gratitude to Mayor Keller from his strong leadership, honesty and transparency regarding the ART project.

Ms. JonesFrancis stated that the press conference was informative and expressed appreciation because the public deserves to know why there are so many delays.

Ms. Salisbury expressed concerns that problems seem bigger than just a few tweaks.

There were also concerns that they have been misled by the Department of Transit and that as board members should be able to have information like this before the general public.

The board also expressed strong concern for the project's completion date, funding and mechanical issues with the ART buses. They also requested additional information from the Transit administration regarding the resolution to all of these issues brought up with the Mayor's press conference and a projected date for when ART will be up and running.

They also wanted to share that ART is a great idea, as Mr. Balkin stated that the feedback he got from the public was very positive
